

Planning To Rent Out Your Home or Condo? Here is a checklist of items that you may want to consider including if you are providing a fully furnished and equipped rental:

Bedroom(s)

- Bed(s)*
- Mattress(es) & Mattress Protector(s)
- Duvets / blankets etc (seasonal)
- Sheets**
- Pillows & Pillow protectors
- Pillow cases
- Coat hangers
- Chest of drawers and/or cupboard
- Bedside tables and soft reading lights
- Towels. 1 bath towel one hand towels per guest folded neatly on bed****
- Window coverings/blinds

* If you have the space, consider a king sized bed for your main bedroom. If you have twin beds you can use a 'twin bed doubler' to join them, turning them into a gap-free king. Go for hotel-quality beds if your budget can stretch.

** Get fitted sheets – much easier for your cleaner than normal sheets. Don't use dark sheets. White is simple and can be bleached if necessary. Keep them clean and crisp.

**** It's perfectly acceptable to advise guests to bring their own beach towels if your home is near a beach.
